

Buyer Policy

The buyer agrees to purchase digital products on the dexswift exchange platform at the price set by the seller. The buyer and seller have no relationship whatsoever; the buyer is simply purchasing digital products on this trading platform. The buyer must pay a fee of 5% of the purchase amount, under the following conditions:

1. The buyer must confirm the order to purchase the digital product with the seller at the price set by the seller.
2. The buyer must receive consent to sell from the seller's shop.
3. The buyer must transfer the agreed amount to the seller's (Shop Seller) account (the buyer must transfer money through an online account only).
4. The buyer will receive the digital product as agreed only after the seller has received the money, within a specified time frame.

Note:

1. The buyer must keep evidence of every transaction to confirm the transaction in case the digital product is not received from the seller as agreed. The buyer must send transaction evidence to support@dexswift.com.
2. Buyers who forge documents in transactions, if dexswift exchange finds fraud, the account will be frozen (locked) and will not be able to carry out any transactions or receive any other benefits on the Dexswift platform under any circumstances.
